NATCHA KUCITA

Email: nkucita@gmail.com
Flat 7 3 Atkins Square, Dalston Lane, London, E8 1FP, United Kingdom.

EDUCATION

MEng Civil Engineering and Architecture, Southampton University, UK 2010-2014

- Relevant Modules: Structural Engineering, Architectural Engineering, Projects Economics and Management, Construction Management, Thermodynamics, Mathematics
- Produced integrated engineering design for residential and commercial projects -*'Studio Dwelling' and 'Contemporary Church & Community center in Winchester*
- Achievement: Second Class (Honours)

EMPLOYMENT HISTORY

Lead BIM Coordinator at FHP, London Sept 24-Jan 25

Project Experience - Responsible for leading MEP coordination for Stage 4, 5 projects.

- Utilising BIM collaboration platform such as Revitzo to manage clashes and coordination issues
- Working closely with contractor, architects, structure engineers
- Attending weekly coordination meetings and DTM to flag up any design issues
- Sourcing revit families from various manufacturers
- Responsible for outsourcing and managing a team of coordinators within UK office and abroad
- Update and publish MEP models regularly to AEC cloud
- Performing quality control checks for drawings before submission
- Running softwares such as Diroots to ensure sheets and views are set up efficiently

Notable projects: Stanmore College (Stage 5, CObie Data) , Wings Academy (Stage 4), Saxon Wharf (Stage 4)

BIM Coordinator at Ingleton wood, Essex **Jan - June 2024**

Project Experience - Responsible for leading MEP coordination for Stage 4 Education projects.

- Liaising with design engineers and architects to develop coordinated MEP model for a Sportshall and Science building
- Generate Navisworks clash test against structure models
- Update and publish MEP models to BIM360 cloud
- Producing high quality coordinated drawings with detailed sections and 3D views for plant room, risers, and key corridor areas
- Importing and updating IFC models
- Generating builders work holes drawing

Notable projects: The Plumes Academy, Glenwood primary school, Cressing Primary School, Harlowbury School

BIM Coordinator at Introba, London **Sept - Dec 2023**

Project experience - MEP coordination of stage 4 and 5 mixed use schemes

- Developing coordinated MEP model using revit fabrication
- Working and liaising with large teams of coordinator to resolve model clashes
- Updating layouts for typical apartments suites and student accommodation
- Going through QA procedures with engineers to ensure all clients comments are incorporated

  Notable projects: 2 Trafalgar way, Roehampton college

Senior BIM Coordinator (Contract) at Cudd Bentley, London, UK **April - Aug 2023**

- MEP coordination of stage 5 commercial project
- Resolving existing clashes and monitoring BIM workflow using Navisworks
- Working closely with MEP engineers to develop coordinated design layout for an existing building with challenging structural constraints
- Producing drawings, relevant sections, details and dimensioning
- Organising model elements using worksets
- Management of revit links, model updates using BIM360 suites

Notable projects:

- 40 Broadway (office) (Stage 5) - Ventilation and electrical design coordination
- The Ministry Westfield (Mixed use) (Stage 4) - Full MEP coordination

BIM Coordinator (Fully remote Contract) at Waterman Group, London, UK June 2022 - Jan 2023

- Leading revit coordination and model management for multiple public sectors projects
- Utlising BIM 360 suites to ensure all linked models are up to date
- Working closely with engineers to ensure design coordination
- Flagging up and recording any issues regarding design coordination as well as Revit/IT issues
- Using Navisworks on a daily basis to keep engineers up to date with modelling progress

Notable projects:

- HM Rye hill prison (Stage 4) MEP *modelling/ Coordination and reconfiguration of main services risers, updating electrical GA's, creating builders work holes drawings*
- IQ Exchange student Accomodation (Stage 3) MEP modelling and coordination
- UKAEA (Stage 3) Public health system modelling and coordination with design team
- SEAH Wind power station office (Stage 3) Responsible for ventilation system coordination
- Ashford Police station (Stage 3) MEP modeling and generating clash detection report
- Normandy way (Stage 3) Primary school MEP modelling and coordination, builders work holes generation and coordination with structural team, ensuring all drawings are up to standards

BIM Coordinator (Contract) at Elementa Consulting, London UK Nov 2021 - March 2023

- Coordination of complex plant room design. Coordination with base build installation on site. Re-modelling of drainage design.

  Notable project:

- W Hotel (Edinburgh) Stage 5 MEP model coordination and producing new drawings for plant room, and services risers.

BIM Coordinator (Fully remote Contract) at Waterman Group, London, UK Feb 2021-Oct 2021

- MEP modelling & coordination for residential project stage 4
- Drainage revit modelling and coordination for stage 3 commercial project
- Creating masters Navisworks model to resolve clashes
- Model management tasks, such as monitoring views and sheets set up, importing architecture and structure models and exporting model from BIM 360 suites
- Revit Families development and modification
- Utilising BIM add-ins such as Bimlink, MagiCad to efficiently generate builders work and relevant drawings

Notable projects:

- 95 Queen Victoria Street -Stage 3 Leading MEP revit coordination for existing build office
- Oval - Stage 3 Coordination of ventilation, and drainage design within plant areas & corridors and apartment
- Bingham Leisure centre - *Stage 3 MEP coordination, working closely with engineers to ensure spatial requirements are met, clash detections*
- Rye Hill prison - Stage 4 *Modelling and coordination of electrical services and builders hole*
- Ashford police station - Stage 4 *Responsible for domestic and drainage services modelling*

Senior BIM Designer at Elementa Consulting, London, UK **Jul 2016 – Sep 2020**

- Leading MEP coordination for commercial, residential and educational projects
- Development of BIM library, including generic and parametric families creation
- Model management and audit using Navisworks and clash reports to track progress
- Creating 3D visualisation and walkthroughs presentation
- Running in house training for Revit and Navisworks
- Setting up Revit projects, linking models, monitoring templates, exporting DWGs, NWDs managing and setting up sheets output, utilising RF tools, assigning CoBie data

Notable projects:

- W Hotel Edinburgh - *Stage 3,4 Lead revit coordinator for MEP services*
- Roomzzz Hotel Edinburgh - Stage *3, 4 Lead revit coordinator for MEP services*
- Wood Wharf mixed use scheme - Stage 3,4, *Lead coordinator for MEP services*
- *University of Sussex - Stage 3, Lead revit coordinator for MEP services*
- *Green park hotel - Stage 3,4, Lead revit coordinator for MEP services*
- *Appold Street - Stage 3 Plant room, public health services coordination*
- *Kisharon Primary School Hampstead - Stage 3 Leading BIM coordination of all services*
- *Financial time - CAT B , Coordination of Electrical RCPs*
- *Shelley House Office - Stage 3 Coordination of MEP services*
- *Tech campus in USA (NDA) - Concept stage Public Health Services coordination*

MEP Revit Coordinator at Hoare Lea, Bournemouth, UK **Jan 2015 – Jun 2016**

- Apply engineering knowledge to coordination of MEP services
- Utilising BIM softwares including NavisWorks to generate services clash detection report
- Collaborate with MEP engineers to deliver high standard coordinated drawings
- Leading above ground drainage coordination and 3D modelling for 20 Grosvenor square

Notable projects: *Chelsea Barracks, 1 Palace Street, 20 Grosvenor Square*

Public Health Engineering Technician at Hoare Lea, Bournemouth, UK **Jun – Dec 2014**

- Key responsibilities include development of above ground sanitary design
- Ensuring regular communication with architects
- Manages project information between engineers and CAD/BIM team
- Coordination between Mechanical engineering and Electrical Engineering to resolve spatial clashes.

Notable projects: *St Anne's House, 1 Palace Street*

Mechanical Engineering Intern at Hoare Lea, Bournemouth, UK

Jun - Sept 2013

- Created design layout of a mechanical system for a residential project in London.
- Being the second point of contact behind project supervisor to bridge communication between product manufacturers, architects and engineers.
- Engaging regularly with meetings and discussions with the project team to establish a clear work plan and identify strength, weaknesses of the project tasks.

SKILLS

- Computing skills: MS Office suites, AutoCAD, Revit Architecture, Revit MEP, Navisworks, BIM 360, Bluebeam,Photoshop & Illustrator (High proficiency) RF tools, BIM link
- Language: English (fluent), Thai (first language)
- Volunteering: Speaking at New London Architecture event
- Other: CSCS approved

POSITIONS AND AWARDS

- Civil Engineering Course Representative, Southampton University 2012
- Duke of Edinburgh Award (Bronze), 2008, Zambia

INTERESTS

- Ceramics, Photography and travelling
